4 Dates of important documents referred should be given
5 Write on both sides leaving the same side as margin

for the information of Govt both details of stock and its value should be shown in the account and all new purchases duly entered up as they are made from time to time"

The above orders elicited the following reply from the supdt of the Ind. School (through the Sgt)

"The stock account of tools and materials etc was first opened on 25-2-92 when I took charge of the school in Dec '94 the Registers were kept in the most disordered condition New forms and headings for each Register had to be adopted for the purpose of correctly and exhaustively posting receipts of every kind of articles such as tools, materials which were received from time to time This would have been correctly compiled in the last year, had the late storekeeper attended to his daily work of posting all the entries then and there without leaving several months work to fall into arrears This was brought to the notice of the Committee His services were then dispensed with on 1-7-1899 The present storekeeper who was first employed on 26-10-1899 has been posting

them all with my own co operation
With the exception of the above mention-
-ed Stock Register of materials, all
the other Registers have been brought
up to date This will also be ~~done~~

When the budget Estimates of
the Industrial school for the year
1901-1902 were submitted to Govt
information regarding certain
items of expenditure entered in
the budget was called for, and the
Estimates furnished by the I Gl were
passed the information required by
Govt has not yet been furnished
by the Supdt

The Inspector General reports
in his present letter that the

this decay in complying with the orders of Govt is entirely due to the supdt he states that the supdt does not obey the orders of Govt and that if he (the supdt) do not pay some attention to the Govt orders, he (the Govt) will have the painful ~~xxxxxxxxxx~~ duty of recommending his dismissal and employment of a better qualified and more sensible and honourable person in his place.

Receipts

It is believed that the several items under receipts represent only the sale proceeds If so what is the total value of the articles manufactured up to date and how much of it represents articles lying unsold? Is any stock being periodically taken of the latter by the Committee?

Expenditure

I Machinary and Tools

Is it necessary to go on adding to the Machinary and Tools year after year at an annual cost of ~~Rs~~ nearly Rs 2000? What is the aggregate outlay under this Head up to date and what is the value of the articles in stock after making a reasonable allowance for depreciation and breakage? Is any stock being taken and if so at what intervals and by whom?

II Materials

What becomes of the materials so largely purchased year after year ? Is the whole used up and if so why is the income less than even the cost of the raw materials What is the value of the stock on hand and has it been verified ?

V (1) Office and School Furniture

Why should this not be made in this institution itself ? Why again this should be a recurring item ? What is the value of the stock on hand ?

VI Wages of temporary establishment

Is the whole of this really necessary in addition to the large permanent establishment which is [illegible] ?
